

# GURGLE and his Downstream Friends

We didn't know about storm water pollution!

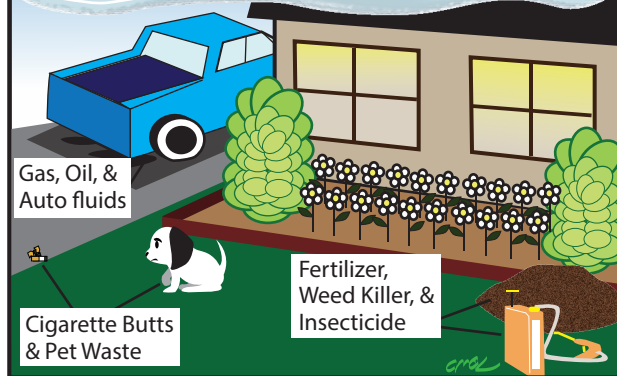

Yard waste and trash make rivers ugly!

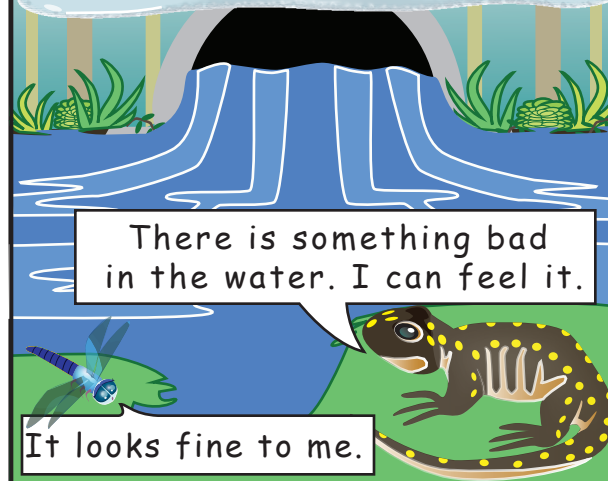

MANY PEOPLE DON'T KNOW. MUCH OF THE STORM WATER DRAINAGE SYSTEM IS UNSEEN, JUST LIKE A FEW OF THE POLLUTANTS THAT ENTER IT.

SOME POLLUTANTS HAVE INVISIBLE CHEMICALS THAT RAIN CAN CARRY TO RIVERS IF THEY AREN'T PROPERLY APPLIED, STORED, MAINTAINED, OR DISPOSED.

D.W. SALAMANDER HAS SKIN THAT ABSORBS UNSEEN POLLUTANTS.

UNSEEN POLLUTANTS IN WATER CAN CAUSE ILLNESS OR BIRTH DEFECTS IN AMPHIBIANS.
